Rootstech 2021

RootsTech Connect is all about connecting people from around the world.

Rootstech 2021

Have you been listening to the first virtual Rootstech 2021 conference? It is FREE, so check it out, www.Rootstech.org

I attended in 2018 and 2019. I learned so much information about Genealogy for my own family archives, for my clients family archives and connected with new people that were just as excited about Genealogy as I am excited about Genealogy.

This year Rootstech is all about connecting! Since the conference is virtual to anyone, there are people from around the entire globe that are attending!!!

Something amazing that one can do is if you have your family tree on www.FamilySearch.org you can "connect" with family relatives that are connected to your family tree that are attending. I have over 1700 relatives attending Rootstech!!! The closest one may be a 5th cousin but still over 1700 relatives virtually at the same conference as I? What an amazing family reunion!!!

Today the 27th is the last day, but the sessions will be available on www.Rootstech.org for a year.

Check it out!

Spring is coming!

Who Loves Spring? I love Spring?

Warmer weather, flowers blooming, birds signing, baseball spring training, and fresh air.

Contact **Christie** to discuss your Spring Photo Projects.

LAUNCHING IN MARCH!!!

ARE YOU READY FOR SOMETHING EXCITING TO HAPPEN?

Christie has been working on something so exciting that you are going to want to be the first to find out.

Email Christie [here](#) to get a sneak peek along with receiving a free gift that will help you to Preserve Your Memories and Share Your Legacy.
