

Formerly known as Vision to be Organized and Scrapbook Designer

Preserve Your Memories, Share Your Legacy

Since 2006, Scrapbook Designer and Vision to be Organized have helped and continue to help 100's of clients all over the world with their scrapbooks, photos and home organizing needs. I am very grateful, thankful and blessed by every single client that I have helped along the way. I want you to know that myself and my business remains committed to serving and supporting you and your family. There is no doubt that businesses change, people change, and lives change.

On March 31st, 2021, I am happy to announce the launch of my new business brand [Memorable Legacy](#).

[Memorable Legacy](#) is a blend of both Scrapbook Designer and Vision to be Organized. I am staying true to what made my home-based business a thriving and successful business since 2006 while reimagining my brand to reflect the heart-filled services I truly enjoy providing to my clients.

Over the next few months, you'll see all the exciting ways that I will be bringing this brand to life, including:

- stronger focus on Photo Management & Organization, Scrapbook & Album Design, Genealogy & Family History Preserving
- more remote and virtual options for working together
- a redesigned website with a new logo
- a second studio in Fremont, NE (in addition to our current location in Canyon Country, CA)

With [Memorable Legacy](#), I'm expanding how I'm able to support you with all of your photo management needs while also offering more genealogy and family history preservation services.

I am very excited to introduce you to [Memorable Legacy](#). Please let me know how I can help you.

Thank you so much for your trust and continued support. I look forward to continuing to serve you.

Christie Johnson
Photo Project Manager & Certified Professional Photo Organizer
Scrapbook Album & Digital Book Designer
Photo & Memorabilia Preserving & Digitalizing Expert
Genealogy Researcher & Family Legacy Preserver
